## WELCOME TO COASTAL GALLERY AT PALAIS DES VACHES

Coastal Gallery is a leading contemporary art gallery established in Lymington, Hampshire in 2012. We are now located within Palais des Vaches at Lower Exbury Farm, Exbury, Hampshire, a stunning gallery and events venue overlooking the Beaulieu River.

Coastal Gallery has become a touchstone for exceptional and unusual contemporary art and design. Working with emerging and established leading artists and designers, Coastal Gallery champions painters, printmakers, photographers, ceramicists and sculptors mainly based locally and in London. Their work demonstrates outstanding talent, creativity and craftsmanship.

The Coastal Gallery collection is curated by Stewart Mechem and Bev Saunders. Between them, they bring together years of experience working successfully in the art, design and fashion worlds. With a keen eye for contemporary art and design, and knowledge of what's trending, Stewart and Bev have an instinct for sourcing the best artwork for each and every client.

Palais des Vaches is a magnificent former milking parlour built in the 1920s by Nick de Rothschild's grandfather, Lionel. It has been lovingly transformed into a unique gallery and events space by Nick and his wife, Caroline, both artists. They invited Coastal Gallery to join them to develop and curate art and design exhibitions throughout the year. The creative opportunity to work with Nick and Caroline was too good to miss, and Coastal Gallery is now at Palais des Vaches.
